

Three questions, *answered.*

What is RaceSims? Where will we be in three years? What are the revenue streams?

QUESTION ONE

What is RaceSims?

RaceSims is India's gateway to motorsport. Whether you want to try racing once or pursue it as a career — this is where you start.

India has thousands of motorsport aspirants — but unlike most other sports, the entry barrier into motorsport is excruciatingly high. Kart fees, equipment costs, training infrastructure, time: all gate the path to a real cockpit. Everyone aspires; few get the chance to try. **RaceSims removes that gate.** We make racing accessible for the price of a movie ticket, and we give those serious about it a structured ladder all the way to the grid.

Built across **four lines of business:**

01

Sim Centres

Premium motorsport sim centres. **Chennai flagship opens 2026**, with a **43-centre national rollout** over five years.

02

Hardware Distribution

Official distributor and service partner in India for **Conspit and VNM** — the world's leading premium sim racing hardware brands.

03

The Motorsport Academy

Driver development under one roof.
Curriculum (Initiation → Pro Track) · 1-on-1 coaching · **Track Day Programmes for supercar drivers** · Real Driving Experiences via exclusive partnerships.

04

RaceSims Championship

India's national sim racing championship launches **2027** — broadcast, sponsors, and real-world race seats for the season's best.

Founded by **Thambu Samy**, a working race engineer at ARKA Motorsports — India's most-decorated motorsport team with **130+ national championship titles since 1987.**

QUESTION TWO

Where do we see RaceSims in three years?

By May 2029, RaceSims will be **India's category-defining premium motorsport development platform.**

CENTRES OPERATING

17

7 Tier 1 + 5 Tier 2 cities

NETWORK REVENUE

₹40 cr

RaceSims direct ₹25-28 cr

RACESIMS EBITDA

₹8-10 cr

40% blended margin

VALUATION

₹250-400 cr

Series B conversation

The platform will have served **100,000+ unique customers** across the network, produced **2,000+ Motorsport Academy graduates** through structured training, hosted the **RaceSims**

Championship in Season 3 (broadcast, sponsored, with established hero drivers), and placed the **first Academy graduates in real race seats** via ARKA Rally Drive, Polo Cup Follow Car, and INRC qualifying.

Built on three things investors can underwrite: ARKA Motorsports race-engineering pedigree (130+ titles); official Conspit + VNM distribution and service partnership in India; and the only integrated motorsport development stack in the country — centres + hardware + championship + curriculum + sim-to-real pathway under one brand.

QUESTION THREE

What are RaceSims' revenue streams?

Two layers — **centre-level** (Drive · Train · Compete) and **HQ / network-level**.

PER-CENTRE REVENUE · Y5 MATURE ~₹2.5 CR

DRIVE	TRAIN	COMPETE
86% · ~₹2.17 cr Open Sessions (₹500-1K/hr) · Memberships (Pass 8/16 · ₹5-9K/mo) · Group · Corporate · Private hire (₹15-60K) · Café & F&B · Merch	12% · ~₹29 L Motorsport Academy (Initiation ₹8K → Pro Track) · Track Day Programmes for supercar drivers (₹25-50K) · Real Driving Experiences (ARKA ₹1.75L · Buzzing Hornet ₹2.25L) · Pro Driver Training (B2B) · 1-on-1 coaching	2% · ~₹6 L Championship round entries · Season passes · Hosted round share + sponsorship revenue · Broadcast + content monetisation

HQ / NETWORK-LEVEL REVENUE · Y5

STREAM	Y5 ₹
Conspit + VNM hardware sales (franchise centres + consumers via showrooms)	₹17.5 cr
Training programmes + corporate engagements	₹5.5 cr
Championship sponsorships + broadcast revenue	₹4.0 cr
Franchise royalty (6%) + franchise fees from new openings	₹3.6 cr
VMS platform (network + external SaaS)	₹1.8 cr

YEAR 5 CONSOLIDATED

NETWORK REVENUE	RACESIMS DIRECT	EBITDA	VALUATION
~₹105 cr 43 centres at saturation	~₹83 cr All layers combined	~₹33 cr 40% blended margin	₹1,000-1,300 cr Realistic Y5 range

Drive is the volume engine. **Train** is the depth and high-margin growth — Track Day Programmes is the Chennai-specific play for HNI supercar owners. **Compete** is the brand engine that *compounds across the network* — every new centre's championship hosting feeds every other centre's leaderboards and sponsor value.
