FIRST — WHAT WE'RE BUILDING

It's not a gaming café. It's a real **motorsport** centre.

Eight pro racing rigs — one on a full 3-DOF motion platform — right in the middle of Nungambakkam. Run by the people behind **ARKA Motorsports**, a championship-winning race team with **130+ national titles**.

AND THERE'S A LOT MORE THAN RACING

It's a whole **journey** under one roof.

- People don't just drop in to drive — they come to learn. Our **Motorsport Academy** takes them from their first lap to a real race car: sim mornings, real-track afternoons with ARKA.
- We run championships and weekly hot-lap battles that keep people coming back.
- The best of them climb **the Ladder** — straight into actual race seats. This is where India's next drivers will start.

Drive. Train. Compete. All in one place — for the first time in India.

AND LOOK WHO'S WALKING IN

The right crowd, **every single day.**

A Nungambakkam address puts us in front of exactly the people every brand wants to reach:

- HNIs & families
- Corporates & team days
- Celebrities & influencers
- Motorsport fans
- Young aspiring drivers
- Gamers & esports

Every one of them is someone you'd want holding your gear.

NOW — HERE'S WHERE YOU COME IN

One PC ecosystem. Every rig.

Your motherboard is already in our build — **GIGABYTE B850 Gaming X** in all 8 PCs. Now take it all the way. GIGABYTE makes everything inside the PC: the GPU, the SSD, the cooler, the PSU, the case. One brand, the complete platform.

- ▶ **GIGABYTE in all 8 race PCs** — motherboard, GPU, SSD, cooler, PSU & case. One ecosystem, chip to chassis.
- ▶ **Your name on every rig**, the leaderboard wall and the front door.
- ▶ A branded **GIGABYTE AORUS zone** — the full platform on show.
- ▶ Our social, videos, championships and events — all carrying GIGABYTE.

SO HERE'S THE ASK

Power every PC. **Every component.**

₹12.9 L

WHAT WE'RE ASKING YOU TO COVER

Six GIGABYTE/AORUS components across all **8 race PCs** — motherboard, GPU, SSD, AIO cooler, PSU & case.

In return, GIGABYTE owns the entire PC inside every rig — the brand that built every lap at India's first real motorsport sim centre.
