

RACE · SIMS

INDIA · PRO-GRADE SIM RACING HARDWARE

Catalogue

2026

The complete **RaceSims** simulator lineup.
One default sim. Two preset variants. Build your version.

*"Race-engineer credibility, championship-winning teams background.
We don't sell components — we sell systems."*

About this catalogue

The complete RaceSims product line, organised the way a race engineer thinks about a build: controls first, cockpit second, displays third, audio + haptics fourth, accessories last. Pre-configured presets and a configurator walk customers from "I want a sim" to a quotable price in three decisions.

" Most sim-racing retailers sell components. RaceSims sells **systems**. Every kit is built around the principle that the driver's connection to the car is in the controls and the seat — and everything else exists to support that connection. "

Three principles that show up everywhere in this catalogue

1. **The wheelbase is the spine of the build.** Pick this first; everything else slots in to match its capability.
2. **The pedals are where most lap time lives.** Cheap pedals undercut expensive wheelbases. We don't sell mismatched stacks.
3. **Audio + haptics is not an afterthought.** It's a separate tier with its own decisions.

CONTENTS

- | | |
|--|---|
| 1. The RaceSims Sim — one default, configurable | 6. Section 4 — Audio & Haptics |
| 2. Quick Start presets (Starter / Sim / Pro) | 7. Section 5 — 3D-printed Accessories |
| 3. Section 1 — Controls (wheelbases, wheels, pedals, shifters, handbrakes) | 8. The Configurator — per-component options |
| 4. Section 2 — Cockpit & Seating | 9. Cross-tier Add-on Packs |
| 5. Section 3 — Display & Compute | 10. Sample Customer Journeys |
| | 11. Commercial / B2B |

*Pricing in INR, current as of May 2026. Items marked **verify** should be confirmed against the live pricelist before customer quote — landed costs and supplier MRPs shift quarterly.*

The RaceSims Sim — one default, configurable

The customer flow is built around **one default sim** — the recommended config. Pick a Quick Start preset, then customize per component if you want.

RECOMMENDED

Starter

₹5,65,498

New to sim racing. Single screen. Learning the inputs. Real hardware, not a Logitech G29.

WHEELBASE

Conspit Ares Apex 8Nm

WHEEL

Conspit 310 APEX

PEDALS

Conspit CPP Apex (2-pedal)

COCKPIT

RaceSims GT Sim Cockpit

SEAT

Premium Recliner

DISPLAY

Gigabyte G34WQC 34" UW

PC

Standard build

AUDIO

Mid tier

HAPTICS

Standard (Dayton BTS-1)

Sim

₹6,50,998

Serious league racer. Triple screen. The volume customer — what most people get.

WHEELBASE

Conspit Ares 12Nm

WHEEL

Conspit 300GT

PEDALS

VNM Lite Pedal

COCKPIT

RaceSims GT Sim Cockpit

SEAT

DISPLAY

3 × Gigabyte GS32QC

PC

Standard build

AUDIO

Mid tier

HAPTICS

Standard (Dayton BTS-1)

Pro

₹17,03,999

Pro / academy / commercial. Motion-equipped. Premium components. The flagship.

WHEELBASE

VNM DD Supreme 25Nm

WHEEL

Conspit PW-1 Formula

PEDALS

Conspit CPP EVO V2 (3-pedal)

COCKPIT

GT Sim Cockpit + VNM 3DOF Motion

SEAT

Pro X-Large Fixed Back

DISPLAY

3 × Gigabyte GS32QC

PC

Standard build

AUDIO

High-end Sonos Arc Ultra

HAPTICS

Standard (Dayton BTS-1)

All three presets share the same RaceSims-built cockpit, standard PC build, and standard haptics tier — the tiers differ in wheelbase, wheel, pedals, seat, display, and audio. Customer can pick a preset and then customize any component via the Configurator.

01 Controls

Direct-drive wheelbases

The wheelbase generates force feedback. RaceSims stocks two brand families: **Conspit** (primary distributor — entry through premium) and **VNM** (mid through pro, plus the motion ecosystem).

WHEELBASE	TORQUE	MRP (INR)
Conspit Ares Apex 8Nm CDR QR	8 Nm	49,999
Conspit Ares 12Nm CDR QR SIM DEFAULT	12 Nm	59,999
VNM Direct Drive Premier 13Nm	13 Nm	75,000
Conspit Ares Platinum 20Nm CDR QR	20 Nm	85,000
VNM Direct Drive Elite 18Nm	18 Nm	95,000
VNM Direct Drive Supreme 25Nm PRO DEFAULT	25 Nm	1,15,000
VNM Direct Drive Xtreme 32Nm	32 Nm	1,40,000

Steering wheels

WHEEL	STYLE	MRP (INR)
Conspit 310 APEX	Round rim, beginner-friendly	39,999
Conspit 300GT SIM DEFAULT	GT / touring	49,999
VNM GT Steering Wheel V1	GT / touring	59,999
Conspit 290GP	Formula-influenced GT	69,500
Conspit MAX-01	Premium GT	76,500
Conspit PW-1 PRO DEFAULT	Pro F1	2,10,000
Conspit H.O.A Hub	Hub for swappable rims	59,500
Conspit CDR Quick Release	Tool-free wheel changes	6,500

Pedals

Where most lap time lives. We don't sell mismatched stacks.

PEDAL SET	CHANNELS	MRP (FROM)
Conspit CPP Apex	2-pedal	33,000
VNM Lite Pedal SIM DEFAULT	2-pedal	42,000
Conspit CPP Lite	2-pedal / 3-pedal upgrade	59,999
Conspit CPP EVO V2 PRO DEFAULT (3-PEDAL)	2-pedal / 3-pedal +clutch	79,999

Shifters & handbrakes

Both shifter and handbrake are **optional** — not in any default preset. Most circuit racers don't use either; rally and classic GT customers need both.

COMPONENT	PURPOSE	MRP (INR)
VNM Sequential / H-Pattern Shifter	Dual-mode (sequential + H-pattern)	35,000
VNM 1.5 Rally Handbrake	Mechanical-feel rally handbrake	35,000
Conspit H3 Hydraulic Handbrake	Hydraulic-feel premium handbrake	35,500

02 Cockpit & Seating

Cockpit frames

RaceSims manufactures the GT Sim Cockpit in Chennai. Aluminium-profile (40×40 / 40×80 mm extrusion) construction. **Local manufacturing** means quick service, replacements, and customisation no imported rig provides.

FRAME	MRP (INR)
RaceSims GT Sim Cockpit DEFAULT FOR ALL PRESETS Handles GT, Formula (with appropriate wheel + 3-pedal), Rally (with handbrake add-on)	38,500

Conspit formula cockpits (FP-Lite, FC, FC PRO, FC PRO MOTION) are currently **out of production**, removed from active catalogue as of May 2026. Will return when Conspit resumes production. For commercial customers wanting an enclosed cabin experience, see Commercial / B2B section.

Seats

SEAT	FIT / USE CASE	MRP (INR)
RaceSims Premium Recliner STARTER DEFAULT	Standard recliner. Comfortable for long sessions.	29,500
RaceSims Sport Recliner SIM DEFAULT	Sport-styled recliner with stiffer support.	36,500
RaceSims Pro Fixed Back Bucket	Stiff, narrow, no recline. Proper GT seat.	39,500
RaceSims Pro X-Large Fixed Back PRO DEFAULT	Wider profile, fits up to 110+ kg.	45,500

Monitor stands

STAND	WHEN TO USE	MRP (INR)
Integrated Single Screen Stand	Bolts onto cockpit; Tier 1 single-screen builds	8,000
Standalone Single Screen Stand	Free-standing single — monitor independent of cockpit	12,000
Standalone Triple Screen Stand	Free-standing triple, fixed angles	20,500
Standalone Triple w/ Precision Alignment SIM + PRO DEFAULT	Triple stand with adjustable per-monitor angle/position	30,500

Other RaceSims-built accessories

ACCESSORY	PURPOSE	MRP (INR)
Mouse Tray	Slides under cockpit for between-session mouse use	500
Integrated PC Stand	Mounts the sim PC under/beside the cockpit	5,000
HD Castor Wheels	Wheel the rig away when room is needed for non-sim use	5,000
Handbrake / Shifter Mount	Side mount for handbrake or shifter onto rig profile	4,000
Keyboard Tray	Slides out under the cockpit for keyboard work	7,500

Motion systems

SYSTEM	CONFIGURATION	MRP (INR)
VNM 3DOF Motion Kit PRO PRESET INCLUDES	4 × linear actuators + control unit. Pitch / roll / heave.	6,00,000

03 Display & Compute

Monitors

RaceSims stocks the Gigabyte lineup as the standard offering — distributed via Devraj Computers (TN).

DISPLAY CONFIG	MONITOR	MRP (INR)
Triple 32" 1440p SIM + PRO DEFAULT	3 × Gigabyte GS32QC 32" 165 Hz Curved	61,500 (triple) / 20,500 (single)
Triple 27" 1080p (entry triple)	3 × Gigabyte GS27F 27" 165 Hz Flat	37,500 (triple)
Single 34" Ultrawide STARTER DEFAULT	Gigabyte G34WQC 34" 2K Curved	34,500
Single 49" Ultrawide OLED	Gigabyte CO49DQ 49" 144 Hz OLED Curved	1,34,500

Sim PC

Built to order, Chennai. Standard build for all three presets:

COMPONENT	SPEC
Motherboard	Gigabyte B850 Gaming X (or MSI Pro X870-P)
CPU	AMD Ryzen 7 9800X3D (or 9700X for budget-conscious)
GPU	Zotac RTX 5070 Ti
RAM	32 GB DDR5-6000
SSD	Crucial 1 TB M.2 Gen 4
PSU	Corsair RM850X 850 W
Cooler	360 mm AIO
Case	NZXT H6 Flow (front USB-C + USB-A)
OS	Windows 11
Standard Build MRP	~₹2,40,000

04 Audio & Haptics

Two audio tiers (mid / high-end), one haptics tier (standard with optional premium upgrade).

Audio — MID tier

DEFAULT FOR STARTER & SIM PRESETS

COMPONENT	PICK	MRP
Speakers	Logitech Z906 5.1	~40,000–45,000
Sound card	Creative Sound Blaster AE-5+	~15,000–18,000
Headphones	Razer Black Shark V2 Hyperspeed Wireless	~14,000–16,000
Total — mid audio		~₹75,000

Audio — HIGH-END tier

PRO PRESET DEFAULT

COMPONENT	PICK	MRP
Soundbar	Sonos Beam Gen 2 (default) — Arc Ultra +₹35k for multi-purpose room	~50,000
Subwoofer	Sonos Sub Mini	~45,000
Surrounds	2 × Sonos Era 100	~50,000
Headphones	Audeze Maxwell wireless (or Arctis Nova Pro Wireless)	~40,000
Cables, brackets, switch	HDMI 2.1 + Sanus + Vogel's + 5-port gigabit switch	~5,500
Total — high-end (Beam path)		~₹1,90,000
Total — high-end (Arc Ultra path)		~₹2,50,000

Haptics — STANDARD

DEFAULT FOR ALL PRESETS

Body-felt impact via tactile transducers. Telemetry-driven (SimHub Shake-It module) — not audio-tap, so no signal conflict with the speaker tier.

COMPONENT	PICK	MRP
Bass transducers	2 × Dayton Audio BTS-1	~10,000–14,000
Amplifier	Nobsound 2-channel USB DAC amp	~4,000–6,000
Mount kit	RaceSims SKU 11 (PETG ₹999 / PA-CF ₹1,499)	~1,500

COMPONENT	PICK	MRP
Total — haptics standard		~₹17,000
Premium upgrade: Buttkicker LFE Kit + amp		+1,00,000

05 3D-printed Accessories

In-house 3D-printed accessory line. **13 SKUs** across 4 design sprints. Produced on the Bambu Lab X1 Carbon at our Chennai workshop. Most ship bundled with rigs; all sold standalone for retrofits.

SPRINT	THEME	SKUS	PRICE RANGE
1	Catalogue basics	Phone holder, cup holder, profile end caps, RaceSims logo badge	₹299–999
2	Lighting & premium add-ons	LED strip channel, Hue Play holder, Conspit 310 Apex side plates, bass-shaker enclosure	₹599–1,499
3	Premium & custom	Wind-simulator fan housing, custom shift knob	₹1,499–2,499
4	Audio tier mounts	BTS-1 mount kit, Sonos Era 100 rig mount, universal soundbar shelf	₹999–2,499

Bundled free with every kit: profile end caps + RaceSims logo badge.

The Configurator

Each component shows the **picked default** with inline alternatives and explicit price deltas.
Customer swaps any component up or down on the same page.

Haptics

☒ Standard (2 × Dayton BTS-1 + Nobsound) DEFAULT	₹17,000
☐ Premium (Buttkicker LFE Kit + amp)	+₹1,00,000

06 Cross-tier Add-on Packs

Independent of preset / configurator picks. Add to any sim configuration.

Rally Pack

+₹39,000

Required for serious rally content (EA WRC, Dirt Rally, RBR). No default sim includes a handbrake.

- VNM 1.5 Rally Handbrake (₹35,000)
- RaceSims Handbrake/Shifter Mount (₹4,000)

Shifter Pack

+₹39,000

For classic GT and rally with H-pattern or sequential shifting. Mount shared with Rally Pack if both bought (saves ₹4,000).

- VNM Sequential / H-Pattern Shifter (₹35,000)
- RaceSims Handbrake/Shifter Mount (₹4,000)

Premium Handbrake Upgrade

+₹500

Swap VNM 1.5 Rally Handbrake for Conspit H3 Hydraulic. Most realistic feel; price difference negligible.

Motion Add-on

+₹6,00,000

VNM 3DOF Motion Kit (4 actuators). Available on any configuration; typically paired with Pro preset components.

Cabin Comfort Pack

+₹6,000

For long-session customers.

- HD Castor Wheels (₹5,000)
- Mouse Tray (₹500)
- Cup holder — 3D printed (₹799)

Office Integration Pack

+₹12,500

For customers using the rig room for non-sim work.

- Keyboard Tray (₹7,500)
- Integrated PC Stand (₹5,000)

Branding Pack

+₹4,000 typical

Race-engineer voice in physical hardware — RaceSims-printed accessories.

- Phone holder (3D SKU 1)
- Cup holder (3D SKU 2)
- Custom shift knob (3D SKU 10)
- Conspit 310 APEX branded plates (only if running 310 APEX)

Immersion Pack

+₹8,000

Visual + atmospheric immersion add-ons.

- LED strip channel + diffuser (3D SKU 5)
- Hue Play holder + Hue Play bar
- Wind simulator dual (3D SKU 9 × 2 + fans)

07 Sample Customer Journeys

How the catalogue applies to typical customer profiles. Each starts at a Quick Start preset (or the default Sim) and adds documented configurator changes / add-on packs — no off-catalogue bespoke pricing.

"I want to start sim racing seriously, single screen is fine for now"

→ Starter preset as-is

Total: ₹5,65,498

"I race iRacing GT3 in regional leagues, triple screen + premium audio"

→ Sim default (₹6,50,998)

+ Audio upgrade Mid → Sonos Beam path (₹1,15,000)

Total: ₹7,65,998

"I race rally on weekends + circuit weekdays"

→ Sim default (₹6,50,998)

+ Rally Pack — handbrake + mount (₹39,000)

+ Shifter Pack — mount shared with Rally Pack (₹35,000)

Total: ₹7,24,998

"Shifting from real karting to F1 sim — formula content focus"

→ Sim default (₹6,50,998)

+ Wheel swap 300GT → Conspit 290GP formula-style (₹19,501)

+ Pedals swap VNM Lite → CPP EVO V2 3-pedal (₹53,999)

+ Audio upgrade Mid → Sonos Beam (₹1,15,000)

+ Custom shift knob (₹2,499)

Total: ₹8,41,997

"I want pro F1 wheel without full motion build"

→ **Sim default** (₹6,50,998)

- + Wheel swap 300GT → Conspit PW-1 Formula (₹1,60,001)
- + Pedals swap VNM Lite → CPP EVO V2 3-pedal (₹53,999)
- + Wheelbase upgrade 12Nm → Ares Platinum 20Nm (₹25,001)
- + Audio upgrade Mid → Sonos Arc Ultra (₹1,75,000)

Total: ₹10,64,999

"I run a racing academy and want full motion"

→ **Pro preset** as-is (₹17,03,999)

- + Premium haptics (Buttkicker LFE Kit) (₹1,00,000)

Total: ₹18,03,999

"Commercial install — enclosed cabin, brand-conscious"

→ **See Commercial / B2B section** — custom quote, R&D in progress

Custom quote required

08 Commercial / B2B

The consumer catalogue covers home and individual customers. For **commercial** — corporate experience installations, hospitality, lounges, retail experience zones, racing academies, esports content studios — RaceSims has a separate quote process and product roadmap.

The Enclosed Rig — in R&D

A fully-enclosed driving simulator cabin, RaceSims-designed, for commercial environments where customers sit inside a *cabin*, not on a rig. Available for early-customer development partnerships and pilots.

What the enclosed rig adds vs the consumer Pro preset

- Full enclosure (sides, roof, customisable cladding panels)
- Custom-branded livery surfaces (front + sides + interior)
- Acoustic isolation — Atmos audio inside the cabin, minimal leakage outside
- Integrated lighting (cabin ambient, idle-mode brand visuals, in-sim displays)
- Single-cable customer-facing operation (kiosk mode, no staff intervention required)
- Optional in-cabin webcam for guest reaction capture / social shareables
- 24/7 commercial-grade thermal management (PC + audio + motion all rated for sustained operation)

Reference order of magnitude: ~₹35–50L+ depending on enclosure scope, cladding, motion configuration.
Custom quote per project.

Existing commercial customers

CUSTOMER	CONFIGURATION	STATUS
Online Instruments	Mahindra Thar Roxx half-cut as the simulator shell — rolling caster base, ~1,200 kg, RaceSims-built half-cut + integration. Transport spec PDF shipped to client.	Active — pivoted from custom enclosure to Thar variant April 2026
Araya Airport	Airport lounge simulator (~₹6.86–6.96L/unit) — RaceSims-built rig with cladding, premium recliner, triple GS32QC	Active reference build (April 2025)

How to engage

This is not a configurator decision. Commercial customers should:

1. Email Thambu at **thambu@racesims.in** with: use case, location, brand, target installation date, expected daily traffic / utilisation
2. Initial discovery call to understand requirements
3. Site survey (in-person or detailed photo/measurement walkthrough)
4. Custom proposal with options (enclosed rig pre-prod / Thar variant / open Pro preset with cladding)
5. Build, install, commissioning

Lead times: custom quote discovery → 4–6 weeks. Build + install → 8–12 weeks once spec is locked.

Build your sim with us.
